

“能源科学与工程”创新论坛

第四期

姚强

报告题目：支撑能源安全和能源转型的煤炭与
新能源融合发展

报告时间：2025 年 11 月 04 日 14:15

报告地点：信控报告厅

主办单位：能源学院、低碳能源与动力工程学院

报告人简介：

姚强，清华大学教授，自强书院院长，主要从事能源科学与技术、燃烧科学与技术、清洁煤技术、可再生能源技术和大气污染控制的教学与研究工作。作为首席科学家承担两个973项目，并长期作为专家服务于国家863、重点研发专项和重大科技专项工作。目前担任国家重点研发计划“煤炭清洁高效利用”总体专家组召集人、国际燃烧学会会士、《Combustion Science and Technology》副主编。

Yao Qiang, a professor at Tsinghua University and the dean of Ziqiang Academy. He mainly engages in research and teaching in energy science and technology, combustion science and technology, clean coal technology, renewable energy technology, and atmospheric pollution control. As the chief scientist, he has undertaken two 973 projects and has long served as an expert in the National 863 Program, key research and development projects, and major science and technology projects. Currently, he serves as the convener of the overall expert group for the National Key R&D Program "Clean and Efficient Utilization of Coal", a fellow of the International Combustion Society, and the deputy chief editor of Combustion Science and Technology.
